

EXPERIENCE

Associate Software Developer | Firstsource Solutions Limited Dec 2024 – Present

- Procurement Management System**  
Tech Stack: Python, Django, Django REST Framework, MySQL Server, Windows Remote Server, JSON, REST API
  - Designed and developed RESTful APIs using Django REST Framework to interact with a MySQL-based procurement database.
  - Implemented efficient serialization and query optimization to enhance API response performance for large datasets.
  - Gained a deep understanding of procurement workflows to design accurate data models and backend architecture.
  - Deployed the application on a Windows-based remote server using Apache, ensuring stable and secure production hosting.
  - Delivered a robust backend ready for integration with reporting and frontend modules.
- AI-Powered Resume Parsing Application**  
Tech Stack: FastAPI, React.js, JavaScript (ES6+), Docker, MongoDB, DeepSeek, JSON, REST
  - Independently developed a full-stack resume parsing application using FastAPI for the backend and React.js for the frontend.
  - Integrated DeepSeek to extract structured data (skills, experience) from unstructured PDF/DOCX resumes via API.
  - Containerized the application with Docker to enable modular deployment and environment consistency.
  - Implemented non-blocking APIs using async/await in FastAPI, reducing response latency.
  - Configured MongoDB with a flexible schema to store and query parsed resume data efficiently.

Full-Stack Intern | CAI Technologies Pvt. Ltd. Feb 2024 – Sep 2024

- Built a responsive dashboard UI using Figma and Chakra UI, improving user engagement by 25% and reducing load times by 20%.
- Developed a brand analysis API with Python and FastAPI, enhancing data processing efficiency by 20% and reducing retrieval time by 15%.
- Integrated real-time financial charts and visualizations, accelerating business decision-making by 40%.

SKILLS

**Programming Languages:** Python | JavaScript | Java  
**Front-End Development:** React.js | HTML | CSS | Tailwind CSS | Responsive Design | Flexbox | SASS | React Router | DOM Manipulation | NPM  
**Back-End Development:** FastAPI | Node.js | .NET Core | Django | RESTful APIs | Authentication (OAuth2, JWT) | Alembic  
**Databases:** MySQL | PostgreSQL | SQL Server  
**Tools and Technologies:** Docker | Pydantic | AWS (EC2, S3) | Pandas | Visual Studio Code | Redis | Qdrant | Chakra UI | GitHub | CI/CD  
**Core Concepts:** Data Structures and Algorithms | Object-Oriented Programming (OOP) | Database Management Systems (DBMS) | Computer Networks  
**Soft Skills:** Effective Communication | Problem Solving | Team Collaboration | Leadership
